## PROFILE

Fullstack web development graduate looking to make an exciting and drastic career change from the world of hospitality to the buzzing South African tech industry, where I can apply my knowledge and passion for creative problem-solving in order to help my team reach its full potential.

## PROJECTS

### Product Website
Using HTML, showcasing CSS and Bootstrap 5.

### Drum Kit
Using plain JavaScript and DOM manipulation.

### Secret Keeper
Using EJS and MongoDB.

### Simons Game
Using JavaScript and JQuery.

### Note Keeper
Using React and pre-built React components.

## EDUCATION

**The Complete 2021 Web Development Bootcamp, App Brewery**
January 2021 - June 2022

- Built fully fledged websites and web apps.
- Mastered front-end development with React, and backend development with Node.
- Learnt professional developer best practices.
- Learnt the latest technologies including JavaScript, React, Node and Web3 development.

**The Complete Management Skills Certification Course, Eazl**
July 2019 - October 2019

- Discovered powerful solutions for common management challenges.
- Learnt to communicate and persuade effectively in the digital age.
- Maximised my personal productivity and handled time constraints.

## WORK EXPERIENCE

**Manager, Slick Group | February 2020 - December 2021**

**Manager, Life & Brand Portfolio | November 2019 - January 2020**

**Waiter, Nobu | October 2015 - April 2019**
